再见北林 2014

北林，2014再见！

今天，我们毕业了。。。

时间过的好像流沙，看起来漫长，却无时无刻不在逝去；想挽留，一伸手，却在指间悄然溜走，毕业答辩，离别筵席，举手话别，各奔东西。。。

这几天，再逛逛校园，走走银杏大道，看看上课的教学楼，实验楼，想起几年前它如何迎来五湖四海的我们，它今天的模样也将深深的刻在这份纪念册里，成为永恒。。。

再见，北林！

再见，北林

时间过得可真快，我已经在中国生活了三年多了。我还记得我刚来中国的时候，我一句话也不会说，我对中文真的一无所知！可是现在我都能跟中国人沟通了。我觉得留学生办公室给我们提供的学习与生活条件和环境都非常好。他们经常带我们出去，给我们好多机会练习口语，也让我们有机会去欣赏很多美丽的风景。虽然中文特别难，但是我现在学会了、也了解了一些中国文化。我感觉学校的生活很幸福！

See You BFU

I was arrived in China in September 2010 and specifically in the city of Beijing to study at Beijing Forestry University. Thus, immediately comes to Beijing, I learned Chinese successfully from September 2010 to June 2011 in Beijing Forestry University.

There was the atmosphere among students and between us we and teachers during this year of learning Chinese.

The year of learning Chinese has allowed me to know China, learn a lot about Chinese culture. During the first year I visited many attractions of China. So, I thank the International Student Office who organized tour for us foreign students during my four years in Beijing.

See You BFU

The first time I came to China, I had many fears in my mind because at that time this country was totally unknown to me, and I was not able to speak Mandarin at all, moreover my English command was very poor. In fact, at the beginning of my life as a foreign student, nothing was easy because I was far away from my family and homeland, so I needed a lot of courage to go on and not surrender to adversities.

During the time I was studying in Beijing Forestry University (BFU) I had to face difficulties regarding to study, language, etc, but after all, I have also many good memories of this university because I learned valuable things and met unforgettable friends here. My Chinese teachers and classmates were very kind to me and I am grateful to all of them, I also want to thank all my friends who in one way or another helped me.

I think BFU is a very good university, so I am proud of having studied here. I am very grateful to the Office of International Students for its support during my studies. I will surely miss BFU a lot when I go back to my country, because BFU is one of the most important reasons I got to love China. You guys are welcome to visit me in Ecuador. I hope you will not forget this Ecuadorian friend.

学生信息 (Student's Information)

Being an international student from Vietnam, I have some feeling about the good conditions of studying at BFU after 2 years when I have been here. I have studied and worked at some other universities so I had impressions about the atmosphere of studying in BFU. Firstly, teachers are so kind and friendly. They work very enthusiasm and create the best conditions for each student, especially for the international students. Moreover, with their attitude being nice and very friendly, BFU makes good inspirations for studying so learned processing is very quality. Secondly, the studying environment is very good and accommodated. Oder to support for student, BFU has a wide and clean campus which is so comfortable and favorable for studying and living. As a result of preparing activities for students such as sports and arts, students who study in BFU have opportunities to improve their knowledge and health. On the other hand, every student has a high consciousness and they are ready to help others. For example, when I come here, I really feel so happy and pleasure because they help me to join a new society. With studying and living in BFU, we will raise our personality. To sum up, BFU is really a good school for everyone to study. It is good for them not only to improve their knowledge but also to enhance our sense of community. I think that I had the best conditions to complete my study program when I join BFU for studying. I would like to say that i really appreciate and value all this moments.

See You BFU

Before I came here, I was known that Beijing Forestry University is one of the top institution for higher education, specializing in forestry and the environment under the China's Ministry of Education. Therefore, I came here with many reasons; to improve my knowledge in advanced methodologies and theories in Forestry of China, and to learn Chinese language and culture, also to interact with its people. I am very pleased to be here and proud to be one of the students of Beijing Forestry University.

In the very first time in here, I faced many difficulties in communication because of my poor in Chinese language. Even though the teachers in language classes are young, they are very clever and patient in learning Chinese to understand easily for the foreign students. Gradually, I am very familiar with the people and their language; that I can release my pressures in living foreign country. Moreover, I can study and practice two languages in here, Chinese in language classes and English in major classes. The teachings of all of lectures in major classes are very precious for me, so that I can build up more knowledge in Forestry. With academic and moral support of my beloved professor, Dr. Liu Yan Hong, I can do the best in my research. Above all, I would like to say my thanks to BFU and all of my teachers of Chinese language and forestry classes and my Chinese friends.

During the two years of my study in here, BFU filled my hope and my knowledge. Again, I would like to say that I am really proud to be the student of BFU.

See You BFU

First of all I would like to thank the Beijing Forestry University for admitting me as a student from 2010 until now, and wish to thank the international office for the efforts and assistance they have been providing. And I wish to thank my department for being very supportive and patient with me throughout my academic years.

I decided to study in china because I wanted to experience life in a different culture. When I came to Beijing Forestry University, I was completely out of my comfort zone. But, I wanted to have the experience of going abroad to help me to grow as a person. I also really wanted to be able to see the world first-hand! I knew that going abroad would allow me to do all of these things.

I honestly believe that studying in Beijing Forestry University was the best decision I have ever and will ever make. I had an opportunity to live in a place many people dream of living. It is a fantastic experience, and the way I have seen the world it will never be the same!

My most memorable experience was all of the traveling I was able to do. There is so much to do in china, and I was never bored! It is also centrally located, which makes travel to other cities very easy. I was able to visit Harbin, Shenyang, Tianjin, shanghai, and Wuhan!

The biggest obstacle that I had to face while studying in Beijing Forestry University was being away from all of my family and friends. It was not easy to communicate with everyone, though. And i really felt homesick, which made it a bit hard to be away from people that I was used to seeing every single day. And yet I would not trade my staying in china with anything else.

See You BFU

Time passes quickly. Finally my four years of bachelors in Beijing Forestry University is coming to an end. As a bachelor student in this school I learned allot, from social life to formal education. Will always remember the good memories I had in BFU, friends I made, classmate I had, teachers who taught me in each and every courses.

Specifically I thank my supervisor Ass. Prof. Wang Nan. He was always there whenever I was in need. The most pleasures moment was during field work with him, He used to teach me allot, family related matters, school related matters, encouraging me when things seemed to be tough. He is for sure my mentor in many aspects. It's because of him I started loving bird watching. It's because of I started loving my major.

Thanks to international office for the trips they prepared for us, it was always funny to meet other foreign student in these trips. The trips were always useful though improvement in these trips might help to make it more interesting. I suggest that the international office to think of more places instead of going the same places each and every year. China is reach of tourist attractions and many historical places which is very useful for our course of study in China especially in Beijing Forestry University., so I think it would be better to choose more places especially those outside Beijing.

In class things wasn't the way they seem to be, as always school is not an easy thing especially when it comes to the use of foreign language as a media of communication in every matter. But through teachers support, classmates help I finally made to the top. Thanks to all who was part of my success during my course of study in BFU.

After class, I thank BFU for giving us nice accommodation with most of basic needs which simplify the pressure of life. Though I enjoyed my stay in this dormitory but faced difficult in terms of food, would suggest to have at least a common kitchen so that to help those who are not accustom to foreign food such as Chinese food.

Time to apply what I learned in BFU come, I have to go and start new life, make new friends, and many more interesting things. I promise to keep this school in my head as one of my growing stage in life. I'm sure my History will not be complete without mentioning BFU. BFU wherever I go will always remember you. The bad the good that I came through during the course they are the things made a today's me.

Trying to look ahead my eyes have boundaries, trying to look back is far. What I'm left with is the knowledge. It's time to change education into a valuable and tangible thing. It's time to live the dream.

By any chance if any of BFU teacher, friends, researchers or anyone who happened to know me don't hesitate to call me when you get a chance to visit Tanzania will love to be your host.

To teachers, Friends and neighbors, I know as a human I probably went wrong some places, afforded you, I take this very time to ask for forgiveness and vice versa is true.

Beijing Forestry University will be in my memories forever and ever. It's sad it was meant to be that way that you meet people and leave them, but I'm glad I've added more friends in my list of friends. It's time to leave room for other.

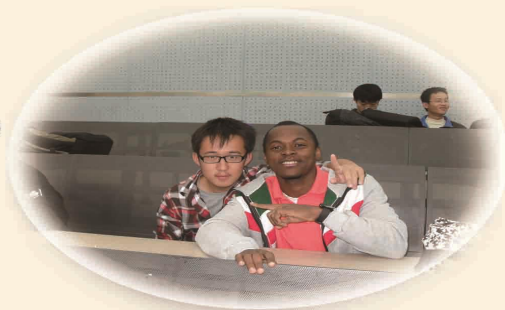

Goodbye BFU. See you again my College of Nature Conservation. I promise to go and be a real conservator as you taught us/as you always wanted us to become.

It is my hope that if I get a chance to visit here again I will always be welcomed.

再见，北林

我无法表达我现在的感情，这里有太多太多事情的积累，来到这里后，有很多以前从没有经历过的新鲜事情。来到北京后，不管是我的个人生活，还是我的学校生活，这些对我来说都是新的。

总的来说，我没有很多类似经历的大学本科留学生同学，他们大多都是研究生，或者是博士生的留学生，他们和我不是同年龄的人，在中国也没有类似的经历，也没有太多接触的机会，他们都很好，会告诉我很多关于他们的经验，但是对我来说并没有太大的帮助。我更糟糕的是，在我们学院从没有一个外国人像我这样的情况，本科直接从家里来北京学习，汉字看不太懂，语言沟通也存在很多障碍，在这里的第一个月简直是我的噩梦，我突然失去了我的一切，我不能说一口流利的中文，在我周围的同学和老师也发现了我的这个困难，他们找了个朋友帮我，当我不知道如何做的时候，他来帮我。

我首先要做的是了解周边地区的情况，体育运动是我的首选，我在使用网站时就学到了很多，我知道我必须提高我的中文水平，友善和合群。中国的老师和学生很欢迎我，会给我很好的建议，我也很快习惯了他们，他们都是爱我的，他们都愿意帮助我的，他们是我所见过的最好的人。办公室的老师们也很好，在接下来的几年，他们组织了很多具有中国特色的活动，组织我们看中国的长城，听中国的京剧，游玩大型城市森林公园。我希望在北京以外的城市同样举办类似的活动，但我不能抱怨，我告诉他们这些我很喜欢。

在这里四年让我有了很多回忆，发生了很多的事情，有好的和坏的时刻，这些都在我的脑海里存在着，但是有很多我不能用语言来表达出来，我好真的遇到了很多人，他们会照顾我的生活，关心我，带我去品尝中国的美食，离开中国后，我会想念中国的美味佳肴，会想念学校的同学们、老师、宿舍的阿姨的。谢谢你们！

See You BFU

I had the honor and privilege to be admitted at Beijing Forestry University (BFU) in September 2009. BFU offered me a very conducive living and learning environment, thus it permitted me to mature both academically and socially. Living and learning in China can be very challenging as there are great cultural and language barriers. These barriers turn to discourage a lot of foreign students. At BFU, I enjoyed a very friendly and understanding classmates and teachers who helped me hand in hand go through these barriers. I am also very grateful to all the staffs of the International student office who always answered present when never need arose. BFU will ever stay in my heart, and no matter where life takes me too, I always be a proud ambassador of China and BFU, for giving me a chance to study and mature into a man. Goodbye BFU.

我2009年来到北京林业大学。北京林业大学给我提供了一个很好学习和生活环境，帮助我在生活方面和学习方面成熟。刚开始在中国留学，我遇到了语言的障碍与文化的差异，因为这个原因，在中国有的留学生选择放弃。我在北京林业大学的同学们和老师们用心地帮助我克服这个语言和文化差异。我特别感谢北林留学生办公室老师的支持和帮助，每次遇到困难和问题的的时候，他们一直在帮助我。我永远忘不了北林，因为北林帮助我变成了一个成熟的男人。不论我在将来在哪儿生活，我会很高兴的说我是北林人！再见北林！

忆北林生活

去年9月我来北林的时候，因为只有一个人，没有人可以依靠，所以感觉很不安。但是，现在我觉得这种不安真的是没必要的。

生活方面，留学生办公室的老师们对我们很好。特别是徐老师和刁老师，因为会说日语，所以给了我很多帮助。而且，留学生办公室安排了参观北林博物馆、爬长城、看杂技、参观学校的生态环境等，这些都很有意思。我深表感谢！还有，我非常喜欢吃饺子。几乎每天在呱呱或学校旁边的饺子店吃饺子。我觉得非常幸福！

朋友方面，我跟室友非常合得来，而且我们汉语班的4个同学变得像家人一样。冬天的时候，留学生们组队一起踢足球，通过踢足球，我们的关系更好了，足球比赛我们获得了第三名。

学习汉语方面，汉语老师们都有各自上课的方法，让我从不厌倦学习。所有的课程的内容都很充实。老师们教得很好，所以我们的汉语水平提高了。虽然刚来中国的时候我一句汉语也不会说，但是现在我都可以用汉语跟中国朋友聊天了。

专业方面，这个春天我去了山西省大同市参加沙漠绿化的活动。大同有黄土高原，那边的壮观风景让人感动。我通过跟当地农民在一起种树，知道了沙漠绿化是非常有意义的活动。

我在北京待了10个月了，时间过得很快。虽然1年很短，但是多亏我认识了很多，比如留学生办公室的老师们、汉语老师们、专业老师们、室友、同班同学们、日语系的老师们、日语系学生们、足球队的朋友们、留学生们、北林的中国朋友们。我才能度过都一段愉快的留学生活。希望以后我们在日本、中国、老挝、韩国、朝鲜、俄国、墨西哥、埃及、赞比亚等国家，再见面、再聊天。谢谢大家！！
