See you BFU

BFU is a very nice campus in the sense that students especially the locals had shown good attitude in respecting and being friendly and nice to me at most times. I find peace inside the university that prevented me from spending more time outside the campus. I have good Chinese friends also attending BFU who assisted me well when am in need in terms of translating from Chinese to English. In such way I also assisted them with their spoken English. Its always a great fun having to share each mode of language. Most students are always willing and eager to help me. My study was a pleasure for me having to complete all my course subjects, on this note I would say I have gained alot of knowledge from the professors provided by BFU. Only that few things needed to be well structured along with the teaching and delivery of knowledge. Otherwise all is excellent, absolutely. BFU has got good building structures both for learning and accomadation of students. In such organized university system, the students will be pleased to learn having in mind the best school facilities being provided to them by the university. Maintenance of such school facilities is very vital and this I often observed happening in the campus. BFU is avery nice and safe university for one to come for study

See you BFU

Have been here almost four month and now is it soon time to go home. Remember my first day coming to BFU. It was a smoggy day in the beginning of Marsh I was excited, it was cold, people everywhere and the traffic was crazy I though. The first weeks was filled with a stream of new impressions, a new language, new food, everything was new and different from our small town and university campus back home in Sweden. The time here as an exchange student have given me a lot, I have experience a new culture, met new people from all over the world, exchange knowledge and learned a new language. Sometimes has been challenging, but always when I have had some trouble people have never doubt to help. Going home from BFU and Beijing I will for sure miss a lot of things, one thing is the wonderful food in our school canteen and the daily life here on campus.

首先, 非常感谢北京林业大学给我提供一个很好的学习机会, 不仅了解到中国的历史、文化和美食, 同时也参观了国际著名的生态旅游景区。通过相关课程的学习, 我已经掌握林业经济学、管理学和生物多样性保护等方面的知识, 以及森林资源统计和计量经济学的应用。在此期间, 我有幸参加了地理信息系统研讨会, 之后我运用该遥感工具研究了墨西哥自然资源的科研项目。另外, 还要感谢“可持续森林管理和恢复”亚太网络组织资助我攻读硕士研究生学位, 使我的学术素养和专业能力得到进一步提高。其次, 衷心感谢导师温亚利邀请我加入他的研究小组, 并在研究过程中给我提出宝贵的建议。同时, 我参加了和毕业论文相关的两大项目: 第一个是中国集体林权制度改革对社区的影响; 第二个是中国自然保护区成本效益分析。最后, 非常感谢来自北京林业大学国际办公室和研究生朋友们, 他们给予我很多生活和学习方面的帮助, 让我感受到了中国人的热情大方, 给我留下了深刻而美好的印象。

See you BFU

See you BFU

I would like to express my greatest thank fullness to the committee of my master program. Especially, the Asia-Pacific Network for Sustainable Forest Management and Rehabilitation (APFNet), which granted me the scholarship program to pursue my master's degree at Beijing Forestry University (BIFU).

I would like to express my sincere gratitude to the other professors and lecturers in BIFU and other organizations especially the International student office. My thanks must go to other lecturers for their interesting and useful lectures in the forestry field trip.

I am happy to express my deepest gratitude to Lao embassy at Beijing for taking good care during the study. I also thank the student of BFU to give me friendly and nice relationships it was good memory.

Beijing Forestry University gave me the opportunity to study in China for a short-term internship at the Wildlife Institute, within the school of Nature Conservation. Once I arrived I was warmly welcome by all the people from the University, they were very available to help me with any problem I can get. Thereby, my arrival and installation in this new city were done without difficulty.

The student international office organises a lot of activities with international students to make them discover Beijing and to help them to integrate within foreigners and local students. It permits to meet people from all over the world, thereby to discover other cultures and way of life. Full of trees and flowers the campus is a lovely place to live. It provides a lot of facilities as the playground area, which allows students to practice a variety of sports at any time of the day. Moreover, the canteen, situated in the middle of the campus, is very convenient. With its five floors it offers lots of different dishes included Chinese specialities but also some Asian or Western food. The international students are regrouped in a nice accommodation building and each room provides everything we need. The campus is surrounded by nice areas, with lots of restaurants or street food, where we can go out with friends and enjoy Chinese culture. It is also easy to discover other places as we are close to the subway and bus stations. We also have the opportunity to study Chinese which is a very interesting and beautiful language we can learn quickly some useful words to get by in the city. I really enjoy the time spend here, we have a nice environment which allows us to combine study and personal activities. We have the opportunity to meet a lot of different people and everyone is ready to help if we have any problem, which make life easy.

See you BFU

See you BFU

自从来到了北京林业大学,我感到相当的满意,我要感谢所有员工、办公人员、老师、学生以及学校里的每一个人的热心和理解,这让我可以安心地开始在“亚洲巨人”的冒险。在这里,我有机会和大量的中国人以及不同国籍的人相遇并讨论学术,正如我想的那样,每个人都有自己的故事,和人生目标。与这些人打交道是一种很愉快的经历。至于说语言,我个人认为是有些难学的,不单单是因为语言的复杂性,因为我认为在本质上也就是与人交流的一种工具。

即使没有汉语,在很多情况下我们也能很好地理解彼此的观点。然而,在中国生活的一个很大的优势就是:即使我们不懂汉语,还是有很多人(至少在北京)会讲英语从而促进并满足我们的日常生活需要。当我决定在北京林业大学开始主修林业经济和管理硕士学位课程时,我就意识到,从生产和商业角度来看关于森林种植的官方数据统计是令人沮丧的,当我学完了大部分课程时,我注意到很多关于森林问题的国际知名的数字都不能反映中国森林资源的现状。我应该说我很惊讶于在设计 and 景观重建的人力和物力的投资,在一些我拜访过和课堂展示讨论过的国家森林公园案例中,他们甚至不得不人工材料从而允许回放功能和原始森林生态系统,使其对社会有利。我有幸游览了北京和附近周边的城市,著名的万里长城,是来中国的必去之地,还有一些地方也是值得一去的如颐和园、国家博物馆、动物园、奥林匹克公园、中国戏曲和很多饭店,甚至是冬天滑冰,在中国的两年我也有幸拜访了三个国家森林公园,也在北京林业大学的第一个落日,我就开始做运动,因为这是我最大的爱好之一。所以在这一方面,我可以说中国和其他运动经历都不同。怎么说呢,作为第一个学期末时队里唯一的一个外国人,我和他们一起训练腰旗橄榄球。在2014年赛季前,我成为了队伍的主教练,给予他们谦虚和认同,所以他们遵从我的决定。同时我也参与了大学足球锦标赛,但我意识到中国年轻人的真实体育职业不是足球。幸运的是,2014年初我有幸踢美式足球,这让我有机会和很多我有同样美式足球爱好的中国和外国的运动员分享时光、经验和挑战。这是除了我的家庭和我的同胞之外的另一种对我的宝贵的支持。同样的,有一天通过一个美式足球俱乐部,我受邀参加一个叫做“youth pep squad”的活动,意在向6-7岁的孩子展示美国足球的基本特征,在队伍中练习英语,让孩子们和我们一样玩的愉快,让家长也能时不时地参与进来。我个人是很喜欢这个活动的,我认为在亚洲这是一个训练这项神奇的运动的好机会。从2014年5月的瑞典锦标赛来看,日本是当今美国大学橄榄球中排第二的,当然是在第一墨西哥之后的啦。我很喜欢在早上六点的时候去跑步,(至少一周一次),经常能发现很多老人在锻炼,他们身上有一种年轻人缺少的激情。同时,在我经常去的健身房,你可以看到不同年龄段的人在努力的保持健康和好的身体状态。这是我在北京,特别是北京林业大学看到的。在墨西哥,人们常说:大家谈论政党取决于政党对他来说怎么样。从我的来看,我很感谢上帝给了我去了解中国人和生活的机会,让我学会了很多有用的东西。我认为中国最大的财富是她的人民,他们忍受了无数的争议,仍然在进步。现代生活成了世界的里程碑。谢谢北京林业大学以及所有人。

My impression of Beijing Forestry University has been generally satisfactory, since I arrived to the campus, I enjoyed every moment of kindness and understanding from the staff, officers, teachers, students and everyone into the school; which allowed me to start my adventure in the internationally known as the "Asian Giant" which relate below. Regarding the interaction with people in Beijing has been for me a pleasant experience, since I had the opportunity to meet a large number of Chinese people and people of many other nationalities, and share professional opinions, same as expected, everyone has a story, a road course and various life goals. With respect to language, personally, I found it somewhat difficult to learn, not only by the complexity of the language, because ultimately it is a means to communicate with humans and therefore is understandable in most situations, however, derivative time management the priorities set by my academic program as my personal preferences, has not been able to learn beyond useful survival expressions and for the strict formality. The great advantage we can find in China if we do not know is language, is that a large number of the population, at least in Beijing, speak English and this facilitates the satisfaction of needs of daily life. When I decided to start the master's program in Forest Economics and Management, Beijing Forestry University, aware of the statistics regarding forest plantations held by the country represented a huge concern for me from the point of production and commercial view, however after having covered most of my courses I have noticed that the internationally known numbers, regarding forest issues, do not reflect the reality of China's forest resources. Since the reform of ownership of forest lands and forest resources in this living, provide for limited experiences in the production side to the forest industry, however is immensely relevant experiences regarding the restoration of degraded forest ecosystems and systems implementation forest recreational and environmental services markets such as carbon sequestration, attracting major national and international investments. I should mention that I was surprised the amount of financial and human resources invested in the design and landscape reconstruction, where he was to dip even artificial materials that allow playback function and original forest ecosystem, to make it useful to society, such is the case of some Forest National Parks I have visited and some case studies presented and discussed in class. I have had the opportunity to visit some places in and around the city of Beijing, highlighting the stunning "Great wall", which is a must to visit if you have been in China, as in the city to visit site places like the Forbidden City, the National Museum, the zoo, the Olympic park, Chinese opera, many nightclubs also had my chance to go skiing on snow in winter and visit three National Forest Parks during my two years in Chinese territory. From my first sunrise at Beijing Forestry University I practiced sports, since it is one of my greatest pleasures, and so in this respect I can say that China has been to me different from the rest of my sporting life experience. To explain my comment, I can say I started practicing Flag Football with the schools team, being the only foreigner in the team until the end of the first season, constituting myself from this preseason 2014 as head coach of the team, given the humility and recognition of my fellow players have decided to serve my recommendations, and simultaneously I have played in the University soccer tournament, where I realized that the true sporting vocation of young Chinese is not soccer. Fortunately, since the beginning of 2014, had the chance to play American Football, this has allowed me to share time and conviviality with a large number of Chinese and foreign athletes who share a taste for this amazing sport and I found the opportunity to share my experiences, challenges, besides being an invaluable support for me to enjoy so far from my home and my people. Similarly, some days, through the American Football Club, I was invited to participate in an event called "youth pep squad" aimed at children aged six and seven years of age, where we had an opportunity to present the characteristics American Football generals and present the team with the children while they practiced their speaking in English, having wide acceptance by both children had a good time, just like us and their parents that accompanied and attended at all times; I personally liked the event, because I think one of the best ways to promote the practice of this amazing sport in the Asian world, noting that today Japan is the second place in American College Football, of course after Mexico who is the current champion, derived from the World University Championship held in Sweden during the month of May 20014. Note that I like whenever I had a chance to go running around six in the morning (at least once each week), it is very common to find old people exercising with the enthusiasm of some young people lack. Similarly in the gym that I attend regularly, you can see people of all ages struggling to stay healthy and in good physical condition. Well generally that is how my eyes see the real China and specially BFU, in Mexico people say "everyone talks about the party depending on how was for him?", from my part I am grateful to God and to the life giving me the opportunity to get to know the Chinese people, which is always something useful to learn. I think the biggest treasure that China has is its people, it has been able to endure countless controversies, still continue to make progress, this modern life becoming a landmark of great importance to the world, investing now provide opportunities people outside the country and to help maintain a global economy that is slowly revealed as a confirmed predator of planet, imposing any other economic interests that would guarantee the permanence of acceptable living conditions for future generations working consciously. Thank you Beijing Forestry University people's for everything. Noe.

Beijing is my second home indeed!

A home where I grew, a home where I made a lot of friends, learned and shared different cultures. I have enjoyed every moment that I have spent in Beijing, although there were some difficult moments, they only made me stronger and pushed me to work harder to arrive to this very special day of my life.

I am grateful for the opportunity and the decision I made to come to study in China. It was a great challenge, but I completed it with flying colors and thank God for that!

I am also very grateful for my teachers, who were very understanding and very helpful, to schedule me for tutorial classes, so I can understand the lessons much better, and pass. My classmates were very helpful as well, they made sure that I was not left out from any activities.

I will miss all of the friends I made here, the beautiful Beijing, the interesting weather, the food and the whole environment.

This has been a very interesting journey for me, and I am happy to have taken it, and go through it all.

Beijing I love you, and see you soon!

北京是我的第二故乡!

它是一个家, 我成长的地方, 在那里我交了很多的朋友, 学习和共享不同文化。我享受我已经在北京度过的每一刻, 虽然有一些困难的时刻, 他们只让我更坚强, 并把我推到更加努力地到达这个非常特殊的日子。

我很感谢来中国学习的这个决定。这是一个很大的挑战, 但我完成了它, 感谢上帝!

我也很感谢我的老师们, 他们都非常了解我, 对我帮助很多, 为我安排辅导班, 所以我能更好地理解知识, 并通过考试。我的同学们对我非常有帮助, 因为有他们, 让我没有落下任何活动。

我会想念: 所有的朋友, 美丽的北京, 有趣的天气, 食物和整个环境。

这一直是一个非常有趣的旅程, 对我来说, 我很高兴已经经历过这一切。

北京, 我爱你, 再见!

See you BFU

See you BFU

I have been studying at BFU as an exchange student for one semester. Before I went to China I had a lot of thoughts about how it would be to study at BFU and live in a country very far from home. I looked forward to go a long time before and I am still very glad that I took the chance to study a part of my education at BFU in China.

My time here has been both amazing and challenging due to all the differences from what I am used to. The first weeks in Beijing I was very confused and did not know much about what was going on. A very great impression from those weeks, and also from the whole time here, is that the Chinese people are very friendly and helpful. From the first beginning I loved the school's cafeterias with a lot of different food to choose between.

I have meet good friends from China and all over the world that I will never forget and I think it have given me a lot to be a student at BFU.

See you BFU

Living moments in Beijing Forestry University is wonderful to spend the time effectively in my life. It is one of the best Universities and everyone would be happy and proud to study there. Campus of the university is very clean and beautiful with seasonal flowers. Students are young, active and always moving with different activities. Students are helpful to each other and teachers have very good manners in teaching. I like most of the activities in there, especially, culture salon seminar is the best that I ever experienced. Even the canteens have a good sanitary surrounding and the foods are diversified and healthy. Chinese language class is very enjoyable place where I can learn and speak Chinese language with students from different countries in a familiar way. Some people might think that learning should be emphasized only on the research that you are doing but, for me, it can improve either of research work or improvement of morality. Contributions from one university to people have unimaginable welfares. It can teach people more educated with high morality to establish better society and environment and the countries can achieve the development in related sectors due to education programs. Beijing Forestry University is a platform to exchange knowledge, culture, and friendship among students whom are willing to come and study in related fields of research in advance. I glad to see the university is getting more popularized in the global education system with high honor among the international students. I recognized that a lot of international students are increasing to attend the school every year. After passing about two years in Beijing Forestry University, feeling comes to love the school. It is a very good memo for one's experience that will last forever and remembrance would be happened at every single trace of thoughts.

北京林业大学是中国最好的大学之一, 两年的美好时光令我一生难忘。我为这里所有的学生感到高兴和自豪。大学校园非常干净, 种植着漂亮的鲜花和树木。老师们彬彬有礼, 学生们年轻活跃, 经常开展不同的社团活动。我喜欢这里的很多活动, 特别是文化沙龙, 是我经历过最好的。即使是食堂, 周围环境良好, 食物卫生, 品种多样。我比较享受中文课, 在这里有来自不同国家的同学, 像一个大家庭一样彼此交流学习。有些人可能会认为, 学习应该只注重于正在做的研究, 但对我来说, 它既可以提高我的研究水平还可以提高我的道德水准。大学教育带给人们难以想象的福利。它通过培养更多受过教育的人建立起更好的社会秩序和环境, 社会也会因教育的进步而发展。北京林业大学为那些愿意来此做林业相关领域前沿研究的学生们提供了一个知识、文化和友谊的交流平台。我很高兴地看到这所大学获得国际留学生的高度评价, 在全球教育体系中越来越受欢迎, 申请这所学校的国际学生每年都在增加, 我也深深地爱上了这所学校。对于我来说, 这是一段非常好的经历, 在这里的每一个足迹都给我留下了深深的记忆。

See you BFU

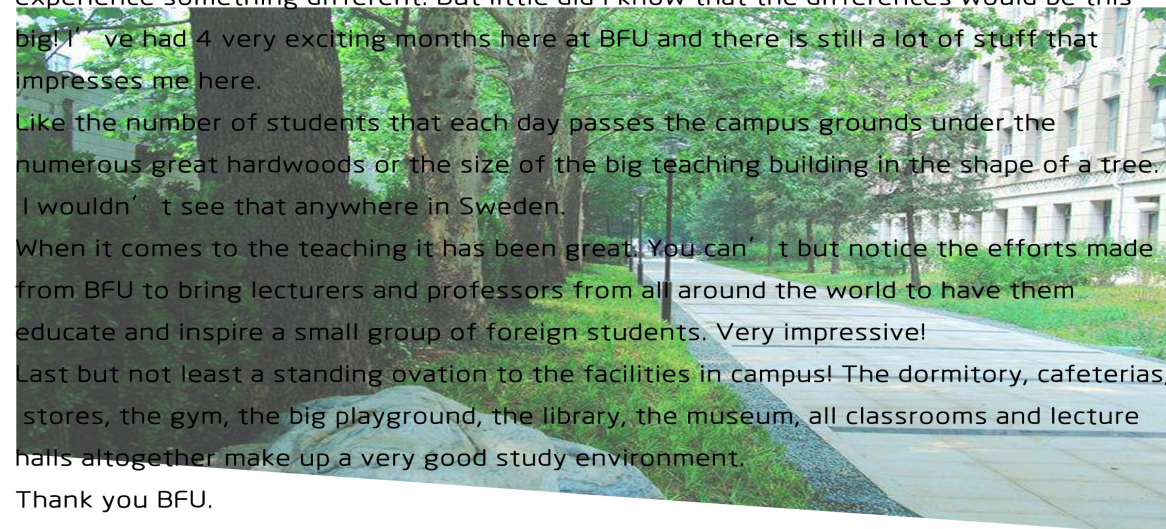

My time at BFU is coming to an end. I knew even before I arrived in Beijing that I would experience something different. But little did I know that the differences would be this big! I've had 4 very exciting months here at BFU and there is still a lot of stuff that impresses me here.

Like the number of students that each day passes the campus grounds under the numerous great hardwoods or the size of the big teaching building in the shape of a tree. I wouldn't see that anywhere in Sweden.

When it comes to the teaching it has been great. You can't but notice the efforts made from BFU to bring lecturers and professors from all around the world to have them educate and inspire a small group of foreign students. Very impressive!

Last but not least a standing ovation to the facilities in campus! The dormitory, cafeterias, stores, the gym, the big playground, the library, the museum, all classrooms and lecture halls altogether make up a very good study environment.

Thank you BFU.

See you BFU

My first impression when I went to this university was very positive. The friend I spoke to just made me feel completely at home because he said when I started as a mature student and that's what I wanted to hear. I find the University itself a rather good environment. Teachers, Friends and classmates are one of the most important parts of my life in BFU. I always interested in their stories since the funny plots. On the other hand, I make many good friends in university. They are my source of energy. Hang out with they cause a lot of funny and crazy events. And every time we recall our ridiculous and crazy behaviors, we just laugh exaggeratedly together. Although my university life is better, I still have a little bit anxiety; because, people often believe that study abroad experiences guarantee language fluency, and pitched as a "magical formula for the development of language ability," but It has not been easy to complete my major major class in chinese. BFU is a good university, but I also found out where there were gaps in the systems, where we had problems and where we identified needs. Finally, I have good memories of my years at BFU with its privileged setting, friendly atmosphere and cultural diversity.

See you BFU

BFU was a wonderful experience that I will remember for the rest of my life. It was hard for me to return to school after so many years but, I found the students and staff to be extremely helpful. I am glad to have the opportunity to study here in China. Hopefully the friends I have made while in China will stay with me into my future and the memories are something that I will cherish for the rest of my life. I am proud that I will soon be an Alumni of China's top Forestry Institution and hopefully will continue to carry many of my relationships into the future. I enjoyed the opportunities to travel around China and see places few Westerners will ever get the opportunity to visit. It was a very eye opening cultural experience for me to be able to do and see all that I did while I have been a graduate student at the University. I feel like this is only the beginning of my future but it is sad to say that this is the end of a great experience here.

I am happy that I attended the University and gained all the contacts and knowledge that China offered me. The future is what you make of it and I wish all the graduating students and future alumni of BFU the best of luck with their dreams. Hopefully we will again meet in the future and share the memories we have had and the experiences we have lived since our days in WuDaoKou. I wish all of you the best of luck, Thank you for hosting me!

Here goes my impression of Beijing Forestry University. In life, it is said that our journeys have been fated, be it good or bad. Fortunately for me, I can proudly and boldly say it out loud today that I have had an awesome time being a student of BJFU. The teachers are so understanding, the international students office staffs are always there to help students whenever we need help, they arrange meetings in order to remind us and guide us on safety measures and ways to improve our lifestyle on campus, the Aiyi in my dormitory is so helpful, the locals I met when I arrived to the school are friendly and willing to assist in any way they can and most especially, the school environment is really welcoming, clean and relaxing for me being a foreign student in China.

During my first year, as expected, communication was a very huge problem, but with the professionalism of our teachers and the help of my Chinese friends, communication soon became easier and life got better. I never expected to learn and adapt so fast with my new environment but after a full school session of rigorous studies, extra Chinese classes and lone time studies on my own, I soon conquered my language barrier problems and started enjoying the Chinese culture, Chinese local delicacies and the large number of tourist attractions around me.

I have learnt that to excel in Beijing Forestry University, most especially in the School Of Landscape that I enrolled with, you need to stay focused, you need to put in a lot of work as a student and this I believe is the reason why most students from BJFU often comes out in flying colors. So I immediately adjusted to the educational system and I didn't allow myself to be distracted by the luxurious lifestyles and adventures around me, I studied really hard to earn my grades and I am very happy today that I made it. As mentioned earlier, the professionalism of our teachers really stood out for me and I consider myself very lucky to have been a student of this great University.

That said, as a student of BJFU, we have had the opportunity to participate in many great fun filled school organized trips around the country that has left every student with mouth opening experiences and very beautiful memories. To mention few, I mostly enjoyed our 10 days practical tour to ZHANGJIAJIE where we learnt more about tourism management, tourism attractions and travel guide. It was an amazing time for me and I had the chance to visit one of the mountains that inspired a big Hollywood movie titled "Avatar". I have included a picture of our trip to the mountains in Zhangjiajie to show how much I enjoyed the school trip to the place.

If permitted, I could go on and on about my impression of BJFU, about how exciting my stay was, about how high standard the University is, about how effective the teachers are and about how dedicated you have to be in order to excel in this great institution. In conclusion, My impression of BJFU is really great and the school will be missed. I have had beautiful memories that will linger on forever, I have met many great people, both locals and other nationalities. I am really proud to have finished from BJFU and I hope the University never loses its standards.

Thank you BJFU for a wonderful academic time.

Ahlam Humaid Almujarfi

See you BFU

See you BFU

时间过得真快, 我还记得2011年刚来到北京林业大学的时候, 感觉像昨天一样。现在要毕业了, 四年的艰苦奋斗和开心的生活要结束了。刚来北林的时候, 我是一无所知的人, 汉语说的不怎么好, 专业知识也有所欠缺。开学第一天, 我很紧张, 也很激动很开心。不过, 迈进教学楼的那一刻, 脸上的笑容已溜到了九霄云外, 只剩下紧张、害怕, 因为当时我担心自己在听课方面会遇到各种各样的问题。但是, 上第一节课后的感觉让我放心多了, 老师和同学们都热烈地欢迎我了, 让我感觉到像自己家一样的气氛。来北林以前的我根本配不上现在的我, 也就是说, 在四年的时段内北林教会了我很多。一般来说, 对我们每个学生来说, 提到北林一定要想起其美丽的校园。北林的校园里充满着树木, 其充分体现了该学校的培养理念“知山知水, 树木树人”, 空气非常新鲜。另外, 说到北林也一定要想起其美好的餐。其实, 我认为过一天不去“呱呱”吃饭是浪费品尝口味独特的餐的机会。北林的校内球赛尤其是足球也给我留下了非常深刻的印象。我总是能在跟其他同学的小组活动找到无以伦比的欢乐。总而言之, 我现在的心情处于自相矛盾的状态, 因为既痛快又难过。让我非常开心的是我的大学四年的努力和奋斗要出成果了, 而让我难过的是我要毕业了, 也就是说要告别班里的同学和亲朋好友了。

See you BFU

I really was impressed with the way that BFU administration accepted me as BFU student, the teachers are amazing and they have a large knowledge about how to teach and how to be a good teacher, they are friendly and they give us the hope to be a good professional in the future. I liked so much all of my teachers from the Chinese language teachers to my supervisor teacher Li Chi. For them I also would like to say thank you..

See you BFU

I enrolled at Beijing Forestry University on the 1/09/2010, it was a great experience everyone I met at BFU was friendly and helpful. The international office was very helpful they introduced me to the school and to my department. The international office was always there for me whenever I needed their help, not to mention my department and my classmates they were all helpful throughout my life at BFU. I would like to thank the school for everything it has done for me and ask the school to continue helping other students the same way. Thank you!

See you BFU

第一天我去了北京林业大学找一个朋友, 我非常喜欢这个大学, 环境很好, 学校很干净, 楼很漂亮。我朋友的房间很舒服, 所以回家以后我打算去北京林业大学学习土木工程。北京林业大学留学生办公室的老师很好的, 他们比较了解我们留学生, 他们也给我们机会, 我们专业的老师们讲的很开心, 他们知道我们留学生有语言的一些困难, 所以他们想办法帮助我们理解课程。我学院的同学给我很多帮助, 他们牺牲自己的时间因为想帮我, 而且也平常请我一起去玩儿, 和互相打球或者足球, 回家以后我会非常想他们和我老师们。我觉得林业大学是我的家, 老师和同学们是我家人。

See you BFU

Beijing Forestry University is a beautiful campus with a lot of beautiful tree species and well-tended landscaped walkways, including ginkgo biloba lining the front entrance and well-watered areas throughout the campus. There are a lot of very nice people that attend the school and work in the administration, especially in the international students office. The people in the international students office do their best to make sure that every student's needs are met and that they have everything they need; therefore, it's a big responsibility to take care of all of the international students and they do a great job. I have been happy with my experience with how understanding everyone has been with my low Chinese level, and find that I'm happy to help others with their English as well. The new buildings on campus make the studying experience feel very modern because they were designed with lighting and design in mind.

See you BFU

Hi, everybody. My Vietnamese name is Chau Thi Thanh, my Chinese name is 周氏清. I worked as a lecturer at Hu Agriculture and Forestry University. I began my master course in 2011 with one year for Chinese class and three years for major process. I have completed my course and still stay here by 2015 July.

In four years abroad, I had saved myself a lot of experiments that are very helpful. I had got such present studying results that because of some reasons in which the support of BIFU teachers and Chinese friends were the most important thing.

As a foreign student, with disadvantages of cultural and language differences, however I afforded to catch up with lecture by the assistance of lectures and native students. So I had conveniently completed the Chinese class and specialized subjects.

I also enjoyed lots of useful academic activities of laboratory and "Wood Science and Technology" school that could improve professional knowledge. During experimental process, I received the supports of supervise Caojin Zhen Professor and Associate instructor Maer Ni Associate Professor and lab's colleagues, therefore I finished my thesis more perfectly.

In addition to studying, I also attended extracurricular activities that International Student office organized, visited some enterprises and enjoyed workshops.

Finally, I would like to thank to Chinese and Viet Nam governments, teachers of BIFU international office, supervise and Associate instructor etc., who helped me during the recent time.

See you BFU

My time here at BFU has been good. It's been a great experience for me to come to one of the largest cities in the world to study forestry. I had the opportunity to meet a lot of new individuals from all over the world. I have broadened my view of the different types of forestry questions around the world. And I have also managed to learn a bit of Chinese. Education has been covering a lot of ground from Chinese law to economic impact on Waterfowl hunting in America. Lecturers from China, Sweden, Canada and America have hosted us. This has made the time here very exciting.

The huge campus BFU provides with its massive lecture building, library, museum, cafeterias and playground make it's an ideal campus for all types of activities. Also the fact that BFU has a variety of different educations makes for quite interesting discussions with the local students, who are very kind and helpful if needed.

Sincerely

Simon Benjaminsson

首先感谢留学生的办公室老师在4年来的北京林业大学学习汉语和专业学习中老师给予了我许多无私的帮助和指导。在4年期间,我遇到什么困难,老师都立即帮我解决给我顺利达到硕士学位。为了我们聚会很多国际交流的文化,使我了解一下各个国家的文化,了解中国文化,中国人很友善。我爱中国,爱北京林业大学。以后有机会我还来北京林业大学读博士。

See you BFU

I thank my University of having formed me during my cycle of Master. I have been trained in good conditions: academic and social. I was treated like any student, from the beginning to the end. I say a big thank you to the Director of the school and in particular to the office of international students, as well as to my supervisor. BJFU, is among the Chinese universities which provide and control good academic and social life of students and in particular foreign students. I keep my University, the best memories that will make me the model of BJFU everywhere where I would go. Good luck to those who come after me, and good luck for those who are in training.
