## 2020

GRADUATION  
ALBUM

## Self-introduction

Name: Bilal Muhammad (毕拉尔)

Date of Birth: 07 April 1992

Major: Forestry Silviculture

Tutor: professor Dr. Jia Zhong kui (贾忠奎).

Education level: Master

Work after graduation: Enrolling PHD in Czech University of Life Science

Name of company: Beijing Forestry University

Email address: [yousafzaibilal1992@yahoo.com](mailto:yousafzaibilal1992@yahoo.com) / [bilalbetho@bjfu.edu.cn](mailto:bilalbetho@bjfu.edu.cn)

WeChat ID: yousafzaibilal1992

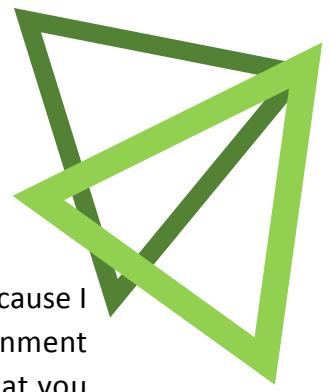

# Feelings About Graduation

I would like to congratulate all the graduating students, myself inclusive for the dream come true.

My name is **Bilal Muhammad**, and I belong to a remote area in **Pakistan**. That means, coming to China would definitely give me a cultural shock. However, after my arrival in China, I was welcomed by the lovely and highly hospitable staff of college of international education from my school. That does feel great and eased me up to a great level. The teachers and the Chinese students made me feel like, I am in my home. After joyful and full of new experience orientation classes, I then joined the classes to furnish my Chinese language in order to understand more about this beautiful cultural country and also to communicate more easily with the local people. During the language course, our **international student office** arranged a cultural trip to Great Wall, Summer place a study visit to Hebei province Saihanba. The activity enriched my knowledge about the ancient lifestyle of people in China. At the end of Chinese language course, I have started my research and my major course work. I am always interested in watching Chinese kungfu movies because China is known for its kungfu masters and legends. So watching it live for the first time was nearly a dream come true. I was happy and so as my teachers because i did not let them down and made inroads for my future life in China. Moreover, after the successful completion of Chinese language course, I stepped into the research world by joining a prestigious School of forestry for Master degree from the “**Beijing forestry University China**”. Additionally, concurrent induction of seminars within the Institute further strengthened my interest and fueled my resolve to progress into forestry research. The experience was very meaningful and I am still reaping the benefits. All these advanced techniques and research skills were new to me because as I mentioned in the first line that i belong from a remote area in Pakistan. I myself and my parents are really thankful to Chinese scholarship council for granting me an opportunity to study in such state of the art level institution. I am sure that this good work will continue from CSC. The experience i got and getting from schooling in China does polish my overall personality and career-defining skills.

When I left home, three years back I wasn't sure what I will get in return. I was excited but at the same time a little scared of the new reality. China was the first country outside Pakistan that I would be living on my own. I was prepared to learn, explore, make new friends and get to know myself as an individual.

To my greatest surprise, China has truly been my second home because I have had some amazing people as friends and family. The environment and the people of this country are so welcoming and helpful that you don't feel away from home. The good experiences that I got here of course does not imply that I did not have to face my share of discomfort and challenge, but it's these challenges has made me a mature, stronger and more confident person today. Every little encounters and experiences gained here in China has been enriching and will remain within my memories for life long.

Talking from a graduating student's perspective, I believe the stories created beyond the boundaries of the University have been equally helpful to the graduates. Everyone has had their own share of excitement and stories that they will carry along their life.

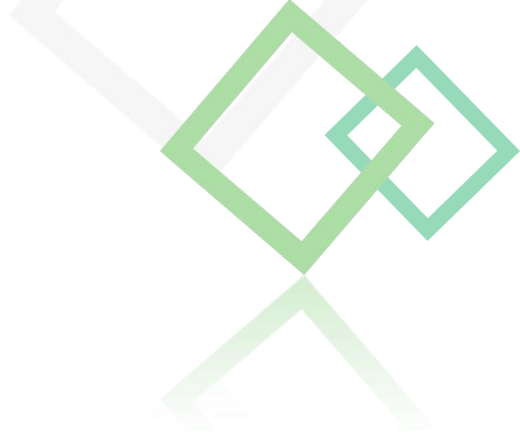

As a student of College of Forestry, I have had more experiences and knowledge. This has changed me from Bilal I know myself to more confident and a researcher **Bilal**. This is because I had professors who were eager to help and guide me and for that I am really grateful.

However, the best thing about the education system here in BFU is that the various current-issue studies, the case works, group works, the research works, the seminars, the conferences and the assignments, each were helpful not only to me but to everyone in developing His/her skills. All the efforts from international student's office staffs, teachers and professors, helps make a student feel at home, Also, BFU provide an opportunity for both national and international students to share each other's culture and make this world a global village. This is a huge opportunity for us students.

Therefore, let us not just keep the friendship within the study for this two-year but help each other build bilateral sector relations with our respective countries. College of Forestry in BFU is all about networking, so let's maximize that purpose to its fullest. Let us use our differences to the benefit of all.

Finally, on behalf of all the CSC Scholarship students, I would like to express my deepest appreciation to Chinese Government Scholarship Council (CSCS) for providing us with a fully funded scholarship that has made it possible to pursue our master program at this prestigious University, Beijing Forestry University.

I would also like to use this opportunity to thank the entire administration of Beijing Forestry University for the opportunity given to us which has transformed our life to somewhere else.

My special thanks go to Professors and all staff of College of Forestry and International Student Office for their guidance and support during our three years study in BFU.

I would us like to express my heartfelt sincere gratitude to my hardworking supervisor Professor **Jia Zhongkui** for his continuous advice, suggestions, patience, encouragements and constant guidance during the period of my study at Beijing Forestry University. He makes everything possible for me here.

Once again congratulation to all of us and I wish us best of luck in our future endeavor. Let be good Ambassadors to Beijing Forestry University in anywhere we found ourselves. Furthermore, it is my honor to work for such a great country as a research student. I will put all my efforts to strengthen my career by utilizing the excellent services of **Beijing Forestry University Beijing China**.

In the last I would like to say:

**“Education is our passport to the future for tomorrow belongs who prepared for it today”**

## Feelings About Graduation

Graduating in 2020, the year marked with a lot of uncertainty is remarkable and memorable, and at the same time a call to a new thinking without the box in addressing societal problems. Finally, graduation in my view is the beginning of learning and experiencing the real world.

## Self-introduction

Name: Umer Hayat

Student ID: 3170847

Date of Birth: 28 February, 1995

Major: Forest Protection

School: Forestry

Tutor: Dr. Shi Juan (石娟)

Educational level: Postgraduate

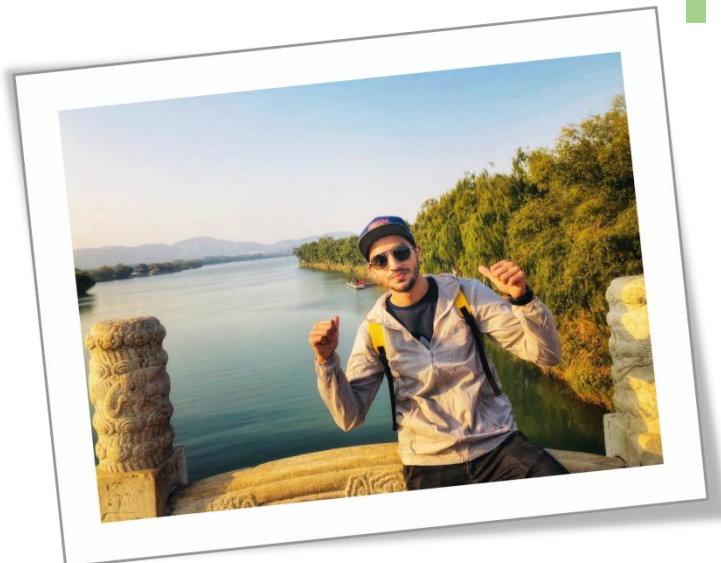

Work after graduation: I'll continue my studies, I've already got admission in BFU for PhD on CSC.

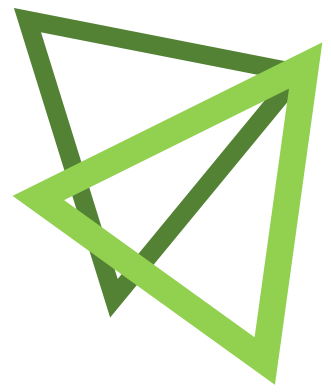

Email: [oomarcassi6116@gmail.com](mailto:oomarcassi6116@gmail.com)

WeChat ID: homy93

## Feelings About Graduation

Graduation isn't the end of a tough journey. It is the beginning of a beautiful one. No words can describe how excited I am for this milestone. I've been visualizing walking across a stage and budgeting for a cap and gown. So graduating in the midst of a pandemic is such a surreal experience which breaks my heart a little that I won't be graduating in the way I've been picturing. No commencement, no party. I feel like I've lost the privilege of the last good-bye to my respected professors, teachers, and beloved friends. I thought of all the things that I wanted to do one last time but would never get the chance to do. BFU, I do miss you!

## Feelings About Graduation

Thanks to God for giving me health, strength and support for completion of the study. I am thankful to MOFCOM for granting full scholarship to study in China. The best and the most crucial part of my life is education. The teaching-learning process was very impressive and fruitful. I grasp basic knowledge from the right university in the right field of study at the right age. The course has taught me many transferable skills for my career in the future. I am deeply thankful to my advisor Professor Huajing Li for her academic supervision and persistent help. Then my special gratitude goes to Miss Di Shang, who supports and assists me in both academic and social aspects. I am also very grateful to BFU international student's association team, professors, and all of my friends. Last but not least, I would like to thank my families for their encouragement, worth thanks beyond what words can express.

Coming to the graduation incident, I feel both black and white moments. White moments represent all things that I achieved and black moments represent activities that I haven't accomplished because of the pandemic. I wish I could meet my advisor and Chinese friends in person but I can't. This lack of proper farewell makes me sad.

Congratulations to all my friends graduates of 2020!

我爱中国, 我爱北林。

## Feelings About Graduation

First of all, I would like to congratulate my Fellow graduates of Class 2020, and wish you all the best in your future prospects and endeavors.

Graduation is indeed a unique moment. We are stepping up to another phase of our lives at a time of great hardship and global difficulties.

Graduation moment, realize us the separation from global family, erase sad memories, refresh beautiful ones and add more splendid memories into our lives. It is difficult time for me to say goodbye to mother institute, but I need to bid them for the sake of my future and success.

Dear brothers and sisters, BFU has been like a mother to us over the past months and years, guiding and nurturing us along the way, providing us with great vision and placing on us high expectations. So what comes next? Actions speak louder than words. Let us accept new challenges, think beyond our limits and keep in mind the ethics of life. Let's undertake everything we can for the sake of unity, humanity and the international community. Let's work together for a more promising future and prosperous world. We will not let you down, BFU, our forever alma mater!.

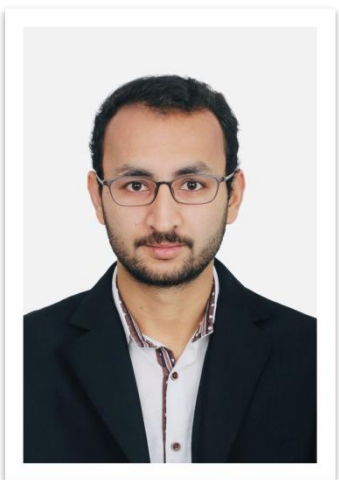

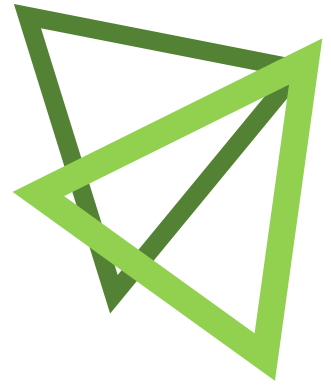

During the COVID-19 outbreak, I got the best opportunity to understand China. I saw millions of people united with one goal – to win the battle against this epidemic. I have never seen such a collective dedication from a nation, turning things for the better by sacrificing personal convenience on a grand scale. China's governance and health care system proves to be one of the most efficient in the world. With a population of 1.4 billion, China not only has successfully controlled the transmission of the coronavirus but also assisted many other countries across the globe. The rules and initiatives set by the university and Chinese government had everyone's health and safety as first priority. This made me feel safe and confident that China was on the right track towards victory.

Finally, I am very thankful to the teaching staff especially my evergreen nature supervisor Dr. Wang Guangxin, security and administrative staff of BFU, people of China, and Chinese Government for their financial, academic and spiritual support throughout my stay here in China. China you are, you were and you will be a world leader forever.

Last but not least, I cannot forget the wonderful efforts of my husband Dr. Zahoor, my son and my parents throughout this journey of my life.

## Feelings About Graduation

Graduation is an exciting time. It marks both an ending and a beginning; it's warm memories of the past and big dreams for the future. When you think about the last two years, you'll probably remember that your greatest lessons came from outside the classroom. It's a good reminder that learning doesn't stop just because you received a degree. Start each day believing in your dreams. Know without a doubt that you were made for great things.

Today is a milestone. It tells you how far you've come. Keep learning, keep trying, keep accomplishing, and keep venturing on through your journey. Congratulations!

Congrats, you did it! But remember that the hard work has just begun! Learning every day is ultimately the key to success. Don't ever stop learning, dreaming and achieving. Go get 'em, graduate! The future holds no promises, but rather mysteries and surprises. What you've learned will prepare you for both. Congratulations and all the best for the future!

## Feelings About Graduation

First of all, I would like to express my deep appreciation to Almighty God for giving me health and support me on all the daily work that I have been done in this university for the last three years. I would like to express my deepest gratitude to the Chinese Government for its financial support that made my dream to study in China true. The role of Beijing Forestry University for its advanced education with comfortable and modern accommodation facilities they are giving for international students is so great, really I'm happy to joined such friendly environment with full of such humble staff to help us in our difficulties and I'm feeling proud to be taught by such well known and disciplined professors. Especially, my last year filled with many tension and worrying moments as every people in the world due to occurrence of COVID-19; however, the assistance of our university by giving us personal protective equipment's, daily checking of our health status and giving us psychological advice make us strong that helped us to be safe and win this epidemic battle.

When I came here everything including environment and weather condition, food, etc. were new to me. However, I adapted everything within a short time due to unlimited supports from an international student staff and Chinese friends. Professor Li Junqing and his Chinese students also acknowledged from my deep heart for their support on my research work that has a great contribution in my happiness of this day. This graduation day will be the memorable day in my life. Because it is the beginning of the second stage of my life. Therefore, I am very happy with this interesting day and also this day make me unhappy in another way since I'm going to miss my friends those came from different countries and stayed with me for the past years here in Beijing Forestry university.

It's not feeling good to be apart from many Chinese and International friends that We shared our culture, language, happiness, sorrow and various situation together for the last three years. Even if we're going to live in different parts of the world, our true friendship will last forever, this makes a day of graduation as a day of both happiness and sadness in my life. It's known that graduation is a unique experience that feel you excited, sad, and everything in between. Moreover, graduation is the day at which all students harvest their fruits that was grown for years by University professors and teachers. This fruits can play major role in changing the life of individuals and societies. Generally, I would like to thanks again all concerned bodies that helped me in many direction and make this great time for me.

# Feelings About Graduation

First of all, I would like to thank the Almighty God and his mother St. Mary who always support in my life everywhere. My deepest gratitude goes to express my appreciation and sincere thanks to my supervisor Assoc. Prof. LI Lingchao (PhD) for his support and constructive comments for my thesis from the binging up to the end of the work to be one of graduated candidate member today. Besides his professional supports, he has been so pleasant, open, friendly approach, and continuous follow up my status at the time COVID-19 pandemic.

We all graduate students congratulation, we did it. We all accomplished one of the major milestones graduation in our lives. This is a key step in the journey of our lives, one that should be recognized for its vast significance. It is an act not only of personal commitment, but also one of pride. It has not been easy, but we have reached the end with this difficulty. The sacrifices we have made, the sleepless nights we have endured, we have overcome all the challenges that life threw on us in the past years stayed in school special challenge and suffer since January, 2020 due to outbreak of COVID -19. But, it should be the beginning of a new one, that I promised all my friends it is the ticket for our next destination not the end.

It is known that education is the key to success; I add that a transformative education is a candle that will light our paths when darkness shows its unpleasant face. It is the key that strengthens hope, and this is the education BFU provided for me in the beautiful city capital of China here in Beijing. I also extend my sincere thanks to Ministry of Commerce People's Republic of China (MOFCOM) for financial granting, school of Economics and Management faculty's staffs, International student's office staff and all Beijing forestry communities.

The last, but not the list I would like to express my deepest gratitude to my families. Special thanks for my mother Mrs. Zigiju Asmare in wholehearted support and your prayers contributed to the success of my life, and my wife Mrs. Askabu Alemneh for your inspiration encouragement in my academic career with infinite patience in the absence me alone.

ሰ ለ ማይ ነ ገ ር ስ ጦ ታ ው እ ግ ዚ አ ብ ሔ ር ይ መ ስ ገ ን (፪ ኛ ቆ ሮ ፱ : ፲ ፮ )

谢谢 中国

Bye Bye BFU!!!

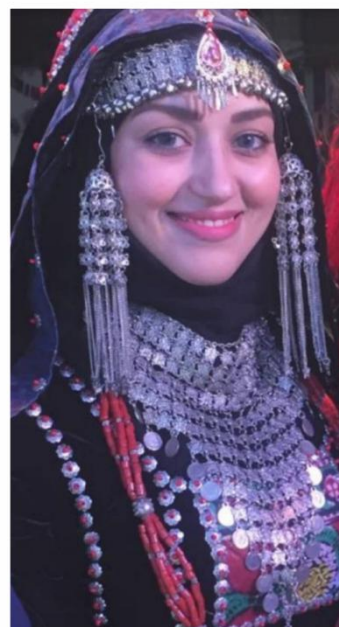

Miss you too

## Feelings About Graduation

I am happy to complete a master's successfully in China. Thank God, I thank God for giving me the knowledge, strength, and patience. Special thanks to all the supervisors for their academic contributions and support; Professor Shi Juan, who taught me how to think and verify the accuracy of the information from whatever source; otherwise, I will not be able to finish this task. I would also like to thank the China government, Beijing Forestry University, the Faculty of forestry for support and guidance, which made me complete my studies. I owe my deepest gratitude to my parents who took care of my professional life since my childhood and guided me all the time until they realized my academic success by providing all the necessary support. I thank my husband and friends for their support, love, interest, guidance, and material and moral support provided to me. I will never forget my family group at Beijing Forestry University and people I would like to express my sincere appreciation to all the staff at the International Student Office for (Zhang Laoshi; Cheng Laoshi) for their timely support during my Master's degree. I have come to the point where I must say goodbye to you.

THANKS, EVERYONE

## Feelings About Graduation

So honored to celebrate my graduation day with all of you ,  
Congratulations to all the graduates of 2020, Chasing dreams is not an easy job, but we've done it! It required passion, commitment and dedication. Wishing all of you a bright future full of success and happiness . Finally, I would like to thank all family, BFU Teachers and friends that accompanied me during my student life in Beijing. They made my student life incredibly fun and joyful.

## Self-introduction

Muhammad Tariq Badshah [塔里克].

Date of Birth= 13th February 1990

School of forestry

Major: Forestry Management

Tutor= Associate professor Dr. Meng Jinghui (孟京辉).

Education level= Master

Work after graduation: Enrolled to PhD in School of Forestry, Beijing Forestry University

Name of company: Beijing Forestry University

Email address= [badshahgi90@gmail.com](mailto:badshahgi90@gmail.com). [Skyfall90@yahoo.com](mailto:Skyfall90@yahoo.com)

WeChat ID= TA034619

## Feelings About Graduation

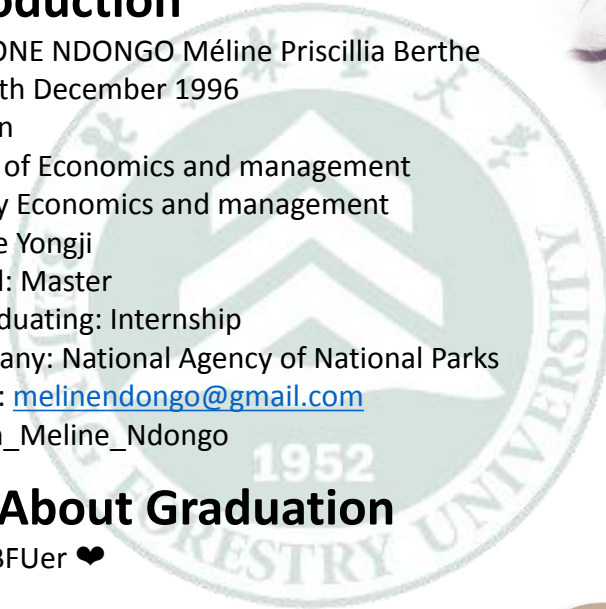

After long days of classes, longer hours of studying, lab work, countless sleepless nights, challenges, obstacles, successes, failures, blood, sweat, and tears, the feeling of graduation from the university is truly surreal. It all went by so fast. And that really is my entire university career in Beijing Forestry University is over and now I am on to the next chapter in life. It's a pretty big deal.

## Feelings About Graduation

BFU has been my second home, and it is really hard to talk about journey of three years, full of memories in short time. It is surely the best period in the life of anyone. The golden era and best time span where a lot of memories are built, and experiences are gained.

Dear BFU, I wish I wouldn't say "goodbye to you", but sometimes when time comes, we have to hold our head up high not cry and say "goodbye" Thank you BFU for making my life happy. I'm very glad to have the opportunity to study here in BFU.

## Feelings About Graduation

时间流逝，大学四年的生活一晃而过，给我的大学生活快要画上句号，心中是无比的难舍和眷恋。这大学期间我不仅学了很多知识，而且成长了很多。

首先我要诚挚地感谢我的毕业论文导师张帆教授。老师在我本科期间，无论从专业的知识，为人品格还是做事的态度等方面，一直都是成为了我的榜样。还有向一直默默地关心和支持我的学习和生活的张亚池教授，在此，致以十二分的诚挚的谢意。我的班主任柯清老师，还有朱捷老师、常乐老师、本科期间教过我的所有的老师向你们致敬，我向你们学了很多知识。同时我要感谢我的父母，无论我做什么决定都默默地支持和帮助，经过这么长时间我终于要毕业了，养育之恩，无法回报，我的最大的心愿就是你们永远不老、健康快乐。

最后我要感谢所有关心、支持、帮助过的陪伴我这四年的我身边的老师、同学和朋友们，有了你们我才能在他国充实的健康地度过了大学四年的学习生活。

## Feelings About Graduation

It was a huge pity that I could not bid farewell to my teachers and friends in person, and was unable to take a final tour of BJFU campus due to the Covid-19. However, this year's graduation in digital form was a super special and unforgettable experience for me. I would say thanks to all the teachers and staffs who still had to work and prepare all the things for our graduation during coronavirus epidemic. I believe this year's graduation is one the most important moments in my life. Wish all graduates from BJFU a bright future and rosy start.

## Feelings About Graduation

留学初期，我从多哥的相关教育部门了解到中国的政府奖学金，并成功地申请了下来，这给我的留学生活提供了很大的帮助。谈到在北林的留学生活，我感慨万千，从一开始的对专业课程、生活环境的不适应到顺利的完成学业并融入北林这个大家庭，我付出了很多，也收获了很多。北林浓厚的学术氛围，专业的教学团队让我产生了对知识的强烈渴求，在这里，师生关系亲密融洽，优良的学习环境也让我慢慢适应并接受了在中国的生活。我特别提到了我的专业导师——张克斌教授，正是因为张教授像“爸爸”一样在学习中和生活的耐心帮助，才化解了我的思乡之情，能够更加专注于学业。关于我的专业，我认为，无论是在哪个国家，荒漠化的研究都很有必要，要做到预防重于治理。非洲也存在着荒漠化的问题，所以，我们不能等到土地已经严重退化才去做防治的工作。我希望我的研究能为我的祖国，多哥的生态环境的改善做出一点有意义的贡献。为了即将攻读博士学位，我正在继续在荒漠化专业方面进行深入研究，并争取在生态环境学领域做出自己的一份成绩。中国是一个让我收获梦想的地方因为除了学习以外我还已在中国定居并结婚。祝中国和中非合万岁！

## Feelings About Graduation

Liberal arts education at Beijing Forestry University (BFU) aims to instill a sense of civic duty in students and to cultivate skills, competences and sensibilities that enable graduates to pursue their goals in a rapidly changing social, cultural and economic environment. BFU graduates will have breadth and depth of vision, the desire and capacity for public service, an awareness of the complexities that characterize enduring human dilemmas, and, accordingly, maturity of judgment. Excellent as leaders and employees, BFU graduates will be the beneficiaries of a multi-dimensional approach to learning.

It is great honor for me to study in BFU and got my PhD degree in due time.

I am highly thankful to my respected adviser Dr. Professor Luan Xioafeng. Dr. Luan never felt me that I am foreigner here. Here treated me as has own son. I am highly thankful to my entire Chinese class fellow, who helps me at every corner of life during my stay in China especially Dr Yang Li, Dr. Kunyuan Wanghe and Miss Mio Mio.

I am highly to all International student office for their support, respective attitudes and solved my every problem as soon as possible

## Feelings About Graduation

My name is Masheli Chakma from Bangladesh. I studied Forestry as a CSC Scholarship student. This opportunity to be a part of Beijing Forestry University as CSC scholarship student has been the greatest opportunity I had ever gotten in my life. I came to this university to study post graduate in Forestry after successfully completed my bachelors in Botany in my country. I came to Beijing in 2017 with new hopes, learning new things, and broadening my knowledge on forest management.

And today, I have been here in China almost three year managed to observe China as following eager and keen to learn, I learned and experienced were beyond my expectations. I am very pleased with the hospitality of our sponsor; the Chinese Government Scholarship Council, Beijing forestry university, China. I got an opportunity to attend lectures and conferences of international professors from different countries and different sectors of forestry and learned the practical training courses where our professors trained us to use software like ArcGIS, ENVI, Fragstate which would help us with data analysis for our future research projects after joining program. My professor always supported and motivated me to do learn more.

## Feelings About Graduation

Primarily, to the Almighty GOD, be honor and praise forever with his mother, the Virgin Mary.

Graduation might be given to the successful achievements, but I do not want to offer graduation only to academic achievements, because, it should be adding other many exciting things that I have seen and learnt in my entire life.

Next, I sincerely thank, my supervisor Zhang Ying (professor) for his endless support from the beginning to the end thesis word. I am especially grateful and thankful to the MOFCOM, Peoples of Republic China for granting me the scholarship to study at Beijing Forestry University, China. I am also grateful for the family services were provided by the China Government, International Student Office, dorm staff, and Beijing Forest University. I would like to also extend my gratitude to my countrymates and international students who shared me their much of experiences. In addition, I am grateful to my host institution the Ethiopian Environment and Forest Research Institute, permitted me to join the international scholarship provided by Mofcom.

Finally, I am grateful and offer the fruit of the study to my father Zerfu Munaw and my mother Anchinalu Melke for their kindly service throughout my entire life. I also thank all my families, especially for my elder brother Tseaga zeab Zerfu (priest) for his endless precious advice and support throughout my life. Thank you all for your valuable offerings, who have contributed to my success.
